Progress Doc

11/ 16/25
- Created react project in VS Code
- Started brainstorming design ideas for portfolio

11/17/25
- Got my tonsils removed and was in recovery for basically 2 weeks

11/29/25
- Kept brainstorming and looking at design inspiration
- Started coding simple version without css

11/30/25
- Started to add some simple css

12/2/25
- Added background picture
- Started brainstorming color scheme and better designs

12/3/25
- Added logo/ icon library and figured out where I want to put them.
- Added picture of myself to my about page
- Vercel for some reason does not display the photo but the local host does, still figuring that out

12/4/25
- Fixed minor css problems,
- Still need to figure out the picture problem
- Need to add picture or link my actual projects
